

## Vertical Ribbon Mixer

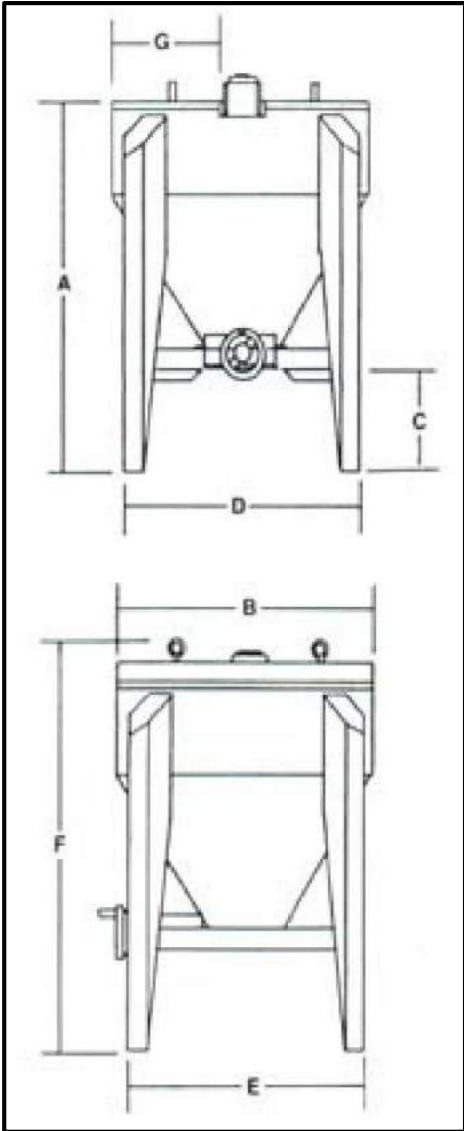

The NBE Vertical Ribbon Mixer is designed to quickly and thoroughly mix batches of powders and other dry solids. The unique design of the continuous helical mixing ribbon, bottom mounted drive package, and clean-sweep bottom blade guarantee a homogeneous mixed, contamination free, and completely discharged batch. The easily removable top cover and mixing ribbon assembly render this design the easiest cleaning ribbon mixer on the market. The compact footprint also saves valuable floor space over horizontal ribbon mixers.

## Features

- Carbon & Stainless Steel Construction
- Conical Shaped Spiral Mixing Paddle
- Bottom Drive Assembly
- Top Loading
- Bottom Discharge with Pneumatic Slide Gate
- Heavy Duty Fork Pockets

# Vertical Ribbon Mixer

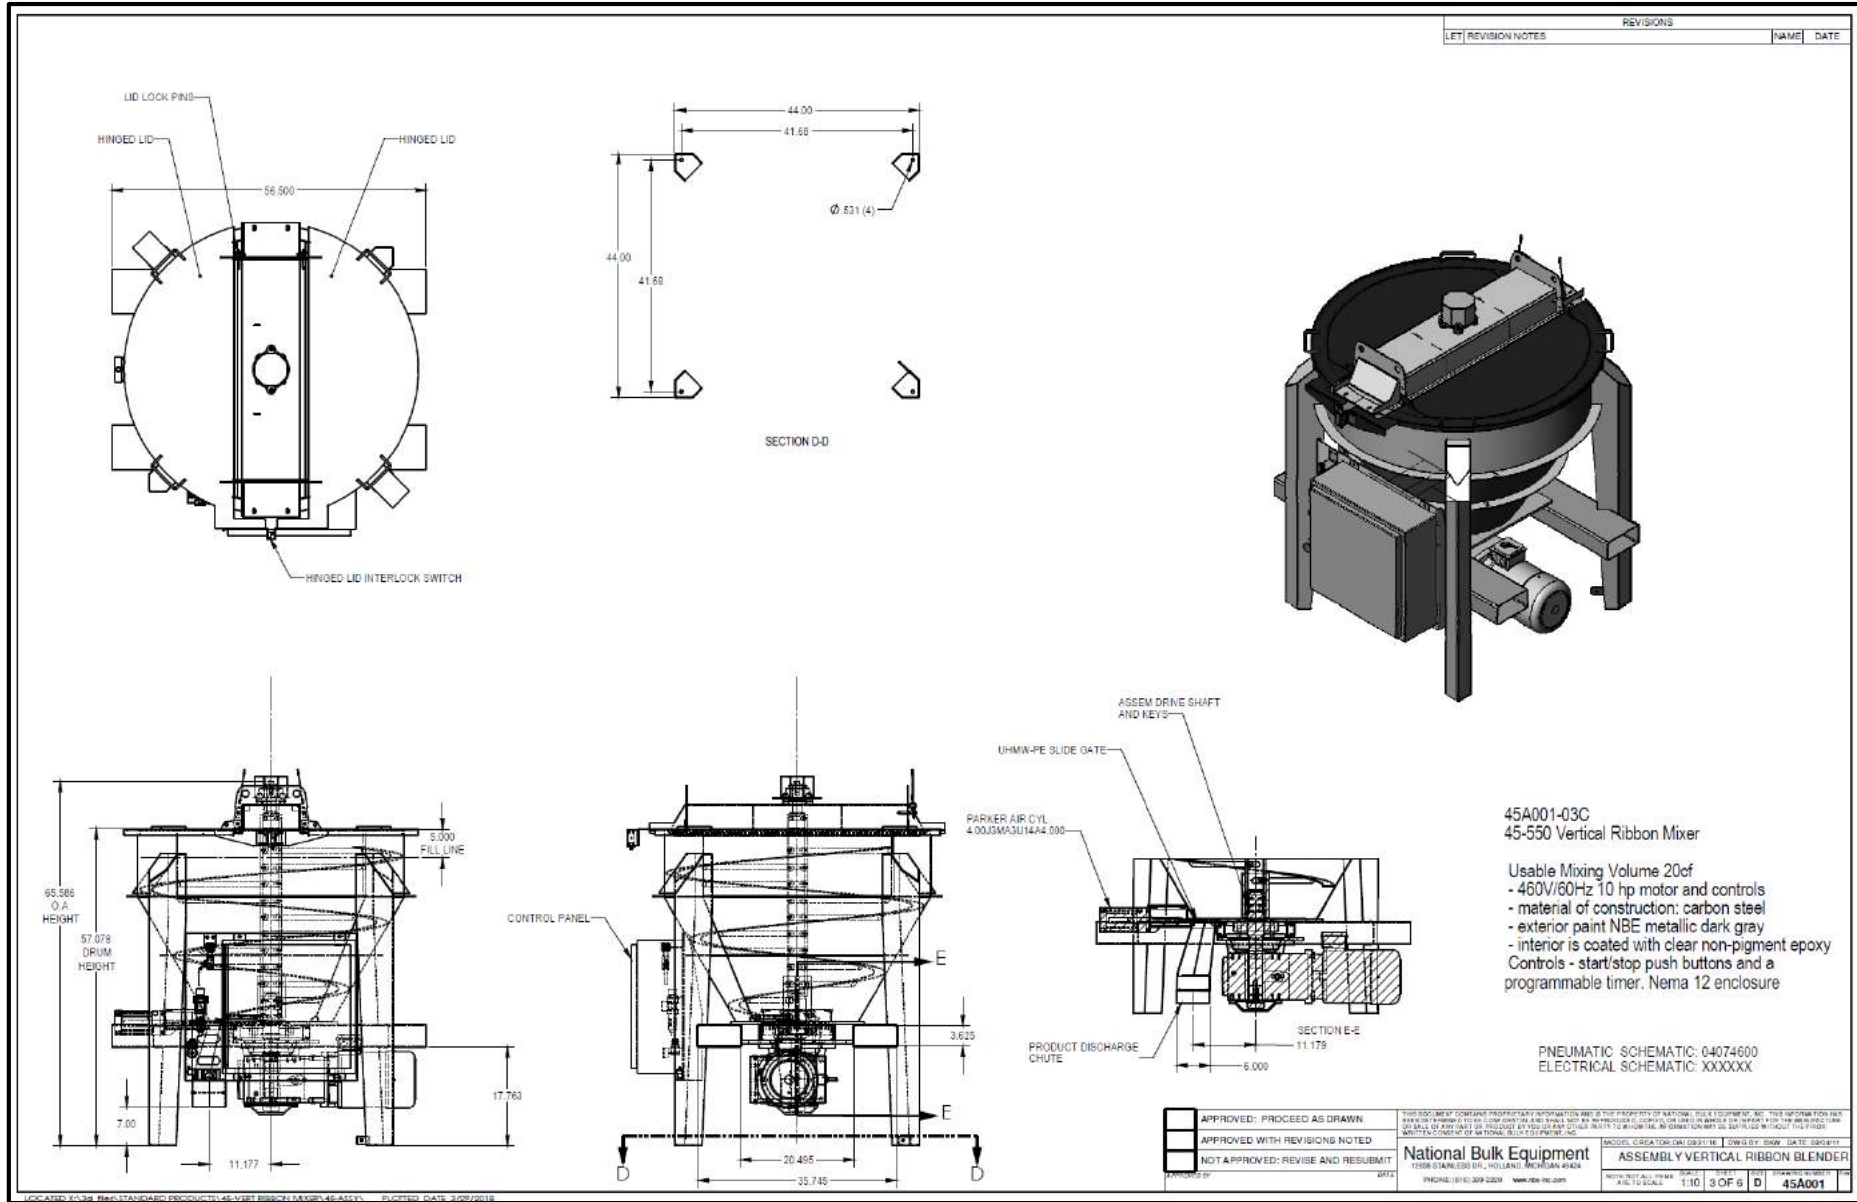

## Dimensional Specifications
