

## Quick Mixers

NBE Quick Mixers are engineered to efficiently blend pellets, regrinds, and granular materials within a range of 5 to 98 cu. ft. These mixers come with standard features such as a vertical mixing auger equipped with a bottom scoop and dispersion plate, guaranteeing consistent and uniform blends with every use. Additionally, the vertical tube and auger can be easily removed for convenient cleaning between batches of ingredients or additives, ensuring optimal hygiene and operational efficiency.

### Application Overview:

- NBE Quick Mixers blend pellets, regrinds, and granular materials economically.
- Available in capacities ranging from 5 to 98 cu. ft.
- Standard features include a vertical mixing auger with a bottom scoop and dispersion plate.
- Ensures consistent and uniform blends every time.
- Vertical tube and auger are removable for easy cleaning between batches.
- Simplifies maintenance and ensures operational efficiency.
